<u>Maintaining Privacy If Making Calls From Home</u>

Landline:

Temporarily **block** your **number**

Actually, it's more like ***67** (star **67**) and it's free. Dial that code before the phone **number**, and it will temporarily deactivate caller ID. On the receiving end, caller ID will usually display "private **number**" because it has been **blocked**. May 22, 2019

Hide your number on an iPhone

1. Go to **Settings**
2. Tap '**Phone**'
3. Press **Show My Caller ID**
4. Use the toggle switch to show or hide your number

Note: Verizon Wireless does not allow this feature.
